

## Ocugen to Participate in a Fireside Chat at Chardan's 8th Annual Genetic Medicines Conference

September 24, 2024

MALVERN, Pa., Sept. 24, 2024 (GLOBE NEWSWIRE) -- Ocugen, Inc. (Ocugen or the Company) (NASDAQ: OCGN), a biotechnology company focused on discovering, developing, and commercializing novel gene and cell therapies, and vaccines, today announced that Dr. Arun Upadhyay, Chief Scientific Officer, Head of Research & Development, will participate in an in-person fireside chat moderated by Daniil Gataulin, PhD, Senior Biotech Research Analyst, at Chardan's 8<sup>th</sup> Annual Genetic Medicines Conference being held September 30-October 1, 2024 in New York, New York.

"I am excited to speak about Ocugen's groundbreaking modifier gene therapy approach in treating retinal diseases and on the progress of our ongoing clinical trials for retinitis pigmentosa, geographic atrophy, and Stargardt disease," said Dr. Upadhyay. "Chardan's Genetic Medicines Conference provides the opportunity to engage with the investor community and share Ocugen's mission among these important stakeholders."

In addition to Dr. Upadhyay's session, members of Ocugen's executive team will conduct one-on-one meetings to showcase the Company's business and clinical development strategy.

Details regarding the fireside chat are as follows:

**Date:** September 30, 2024

**Time:** 10:30 a.m. ET

**Location:** Westin Grand Central, New York, NY

**Webcast Link:** <https://wsw.com/webcast/chard19/ocgn/1909908>

A live video webcast of the fireside chat will be available on the [events](#) page of the Ocugen [investor site](#).

### About Ocugen, Inc.

Ocugen, Inc. is a biotechnology company focused on discovering, developing, and commercializing novel gene and cell therapies, and vaccines that improve health and offer hope for patients across the globe. We are making an impact on patients' lives through courageous innovation—forging new scientific paths that harness our unique intellectual and human capital. Our breakthrough modifier gene therapy platform has the potential to treat multiple retinal diseases with a single product, and we are advancing research in infectious diseases to support public health and orthopedic diseases to address unmet medical needs.
